

Marc Santisteban Ruiz

Solutions Architect | Full Stack Developer

Palma de Mallorca, Spain · [linkedin.com/in/marc-santisteban-ruiz](https://www.linkedin.com/in/marc-santisteban-ruiz) · msantisteban.com · santistebanmarc@gmail.com

I am a Full Stack Developer, as well as a Solutions Architect. I started programming at the age of 15 and am currently 21 years old. For the past three years, I have been working at Arteco Consulting, a consultancy firm where I've had the opportunity to work on a variety of projects. These include collaborations with international companies such as Melia Hotels, government initiatives like the 112 emergency service, and contributions to startups and non-profit projects for NGOs.

In each of these projects, I have taken on multiple roles, from developer to team leader, adapting to the needs of each project and contributing where necessary. Additionally, I initiated the company's expansion into web development and have successfully secured new web contracts, positioning us as a strong competitor in the field.

Seeking a challenging role as a Full Stack Developer or Solutions Architect to leverage expertise in software, architecture, cloud computing and team leadership to drive innovative solutions in a fast-paced environment..

TECHNICAL SKILLS

- **Programming Languages:** Java (SpringBoot), TypeScript, JavaScript, Node

PROFESSIONAL EXPERIENCE

Arteco Consulting SL

Full Stack Developer

Palma de Mallorca, Spain

Jun 2023 – Present

- I have managed the development of complete new screens of an RMS, from the creation of the backend logic to the creation of the frontend design.
- Working with technologies like React, Jest, Cypress, SWR and fetch.
- A milestone achieved in this new role is getting new projects for Melia.
- I have implemented in a project without testing, a complete testing with jest and cypress, reducing in 10 minutes the deployment time.
- In the backend, I have worked with technologies such as Spring Boot, Spring Gateway and Spring Security.

Arteco Consulting SL

Backend Developer

Palma de Mallorca, Spain*Jun 2022 – Jun 2023*

- I have managed the internal business logic of Melia Hotels, as well as other projects.
- I have also created complete integrations with other services in order to expose an API to the front end.
- I have worked with technologies such as Spring Boot, Spring Gateway and Spring Security.
- I have also had experience with Docker development, as well as development upload processes and container management in Argo.
- I have consumed data from relational and non-relational databases and have dealt with sending and receiving messages through Kafka queues.
