

Marc Santisteban Ruiz

Solutions Architect | Full Stack Developer

Palma de Mallorca, Spain · [linkedin.com/in/marc-santisteban-ruiz](https://www.linkedin.com/in/marc-santisteban-ruiz) · msantisteban.com · santistebanmarc@gmail.com

I am a Software Engineer with a strong background in solution design and cloud-based architectures. I am currently completing a Master's degree in Data Science and have over four years of professional experience in the technology sector, including one year at Sopra Steria, working in complex and demanding environments.

Throughout my career, I have contributed to a wide range of projects across different domains, collaborating with multidisciplinary and international teams. In these projects, I have assumed multiple responsibilities, ranging from software development to team coordination, adapting to project needs and contributing beyond my core role when required. I have also played a key role in expanding web development capabilities within previous teams, helping to secure new contracts and strengthen the organization's position in this area.

My technical expertise includes Java, Python, React, and AWS, along with solid experience in agile methodologies and multiservice architectures. I am now seeking to continue my professional growth in an international environment where I can apply my technical skills, leadership experience, and collaborative mindset to deliver high-quality, scalable solutions.

TECHNICAL SKILLS

- **Programming Languages:** Java (SpringBoot), TypeScript, JavaScript, Node
- **Frontend Frameworks:** React, NextJS, Astro, Angular
- **Cloud & DevOps:** AWS, Google Cloud, Docker, Kubernetes
- **Tools:** Jira, Scrum, Kanban, Testing Pyramid

CERTIFICATIONS

- **AWS Certified Solutions Architect**, Amazon (Issued Oct 2024)
- **React Certification**, Udemy
- **Docker Certification**, OpenWebinars

PROFESSIONAL EXPERIENCE

Sopra Steria

Senior Software Engineer

Palma de Mallorca, Spain

Jun 2025 – Present

- Performed the role of Scrum Master duties on multiple occasions, consistently ensuring the successful achievement of sprint objectives.
- Led a database modification initiative using Apache Cassandra, leveraging CQL and Python scripts to implement and validate changes.
- Supported colleagues in front-end development and testing activities, contributing to overall team efficiency and code quality.
- Adapted quickly to international projects, collaborating effectively with clients and teams in multicultural environments.

Arteco Consulting SL**Palma de Mallorca, Spain**

Full Stack Developer

Jun 2023 – Jun 2025

- Managed the development of complete new screens of an RMS, from the creation of the backend logic to the creation of the frontend design.
- Working with technologies like React, Jest, Cypress, SWR and fetch.
- A milestone achieved in this new role is getting new projects for Melia.
- Implemented in a project without testing, a complete testing with jest and cypress, reducing in 10 minutes the deployment time.
- In the backend, I have worked with technologies such as Spring Boot, Spring Gateway and Spring Security.

Arteco Consulting SL**Palma de Mallorca, Spain**

Backend Developer

Jun 2022 – Jun 2023

- Managed the internal business logic of Melia Hotels, as well as other projects.
- Created complete integrations with other services in order to expose an API to the front end.
- Worked with technologies such as Spring Boot, Spring Gateway and Spring Security.
- Experience with Docker development, as well as development upload processes and container management in Argo.
- Consumed data from relational and non-relational databases and have dealt with sending and receiving messages through Kafka queues.
